

## Are you interested in Web Design?

Project Title	Are you interested in Web Design?
Project Summary	Real World Experience in Web Development!
Country	United States
Country/Region of Focus	United States

## Project Description

Are you interested in Web design? We have an opportunity for real-world experience helping to migrate content from an outdated website to a clean new design.

While you're helping us, you'll see the difference in developing and maintaining websites developed with different coding styles – and you'll be in a position to help us improve the new design.

This will help Southwestern Region employees find important information to do their jobs more efficiently – which translates into more time working in the forest so we all have more recreation opportunities

## Required Skills or Interests

Skill(s)
Coding
Design thinking
Editing and proofreading
Website design
